

UNDERHOOK ATTACHMENTS

Features

Professional Underhook Crane Attachments

OVP Group manufactures a complete range of CE-certified underhook crane attachments designed for safe and efficient lifting on construction sites worldwide. Our underhook attachments connect directly to crane hooks, providing a versatile and reliable interface for a wide variety of lifting operations.

Features & Benefits

- CE-certified to European safety standards
- High-strength Italian steel construction
- Compatible with all standard crane hook sizes
- Available in multiple load capacities
- Corrosion-resistant coating for long service life
- Easy installation with no modifications required

Applications

Our underhook attachments are used across a wide range of construction and industrial applications, including material handling, equipment positioning, and precision lifting tasks. They are ideal for use with mobile cranes, tower cranes, and overhead lifting systems.

Technical Specifications

All OVP Group underhook attachments are manufactured to comply with EN 13155:2003 (non-fixed load lifting attachments) and are supplied with full documentation, CE declaration of conformity, and operator manual. Custom load capacities and configurations are available on request.
